

## **Centre for Coastal Research**

The Centre for Coastal Research is based at the University of Adelaide and comprises staff and research students from both the University of Adelaide and Flinders University. The Centre for Coastal Research (CCR) will conduct fundamental research, applied research and research training opportunities in the areas of coastal science uptake in coastal policy, the application of integrated coastal management (ICM), climate change adaptation on the coast, marine protected areas, coastal and marine natural resource management (NRM) community engagement, environmental history.

The research focus of CCR is aligned with two of Australia's overriding National Research Priorities: *An Environmentally Sustainable Australia*, and *Safeguarding Australia*.
